Samsung Electronics Group Malaysia

Posting Date: 4/5/2007 6:55:07 PM

Malaysia is one of Samsung's key investment centers, first established in 1979. The Malaysian operations have since evolved under a stable of 10 companies supported by a workforce of about 7,000 Malaysians - a result of investment of more than US$ 1 billion.
Samsung Electronics Seremban Complex is the base of Samsung's largest integrated manufacturing facility. Located at the Tuanku Jaafar Industrial Park in Senawang, the Samsung Electronics Seremban Complex houses three integrated manufacturing facilities namely, Samsung SDI (M) Bhd, Samsung Corning (M) Sdn Bhd and Samsung Electronics Display (M) Sdn Bhd. Spanning over 52 hectares, investment of the three companies at the complex have to date totaled US$ 1 billion, making Samsung the largest South Korean investor in Malaysia. The three companies manufacture colour picture tube, glass panels and funnels for TVs and monitors, and the international award-winning Samsung SyncMaster colour monitors. Another manufacturing facility, Samsung Electronics (M) located in Port Klang is the only microwave oven producer in Malaysia. Besides manufacturing companies, we have several other offices located at Kuala Lumpur. A whole new world beckons as we approach the turn of the century. For Samsung, it is a whole new world of opportunities and possibilities. To dream. To create. To excel with renewed dynamism and energy. We like to challenge the limits- beyond the limits of human, beyond the limits of technology, and beyond your imagination. So if you're up to the challenge, come talk to us.

HSBC Electronic Data Processing (Malaysia) Sdn. Bhd.

Posting Date: 4/5/2007 5:19:56 PM

Be part of our team of pioneers and embark on an exciting career with a world renowned financial services group.

The HSBC Group is one of the largest banking and financial services organizations in the world with more than 215,000 employees in some 9,500 offices across 80 countries and assets of USD759 billion.

As part of its current global strategic plan, the HSBC Group is establishing Group Service Centres (GSC) in several countries across the world. These centres will provide remote data processing and customer contact services to other entities within the HSBC Group globally.

HSBC Electronic Data Processing (Malaysia) Sdn Bhd (HDPM), a fully owned subsidiary of the HSBC Group, is one of six centres around the world. It provides remote services to HSBC Group entities in UK, USA, Australia, New Zealand, Hong Kong and other parts of Asia Pacific. When fully operational, this centre will be the largest single GSC within the Group.

HDPM is an equal opportunities employer that promotes the development of a work environment driven by people centric values.

HDPM is now looking to recruit professionals with a proven track record of being successful in a dynamic modern business environment for the following role:

Picsel Malaysia Sdn Bhd

Posting Date: 4/5/2007 2:24:56 PM

PICSEL Technologies is a highly successful technology company supplying mobile software solutions to many of the world’s largest makers of phones and handheld computers, including Samsung, Motorola, Sharp, NTT DoCoMo, Sony and others. The company's revolutionary approach to browsing and content rendering allows mobile users to handle web and PC documents just like the desktop, and is being rapidly adopted by an industry excited by the possibilities. Picsel is headquartered in the UK and in 2003 formed Picsel Malaysia to be the focus for all of Picsel's activities in the APAC region. Picsel Malaysia is based in modern office premises in PETRONAS Tower, Kuala Lumpur City Centre. In addition to sales and marketing activities, Picsel Malaysia conducts software development and testing for the company's award winning ePAGE™ technology and associated applications, including Picsel Viewer and Picsel Browser. Picsel's ePAGE™ enables mobile phones and other embedded devices to view and manipulate any kind of document, including full web experience, MS Word, Excel, PowerPoint, PDF, Flash, images, video and audio. Patented techniques for graphic rendering create a unique experience and allow the user for the first time to enjoy mobile access to all of the rich content familiar on the web and desktop. Picsel's development lab in Malaysia is the company's first outside the UK and has been assuming greater responsibilities through a planned programme of knowledge and technology transfer. As part of this process, there is now a vacancy for an experienced team leader.

Wawasan Open University

Posting Date: 4/6/2007 10:24:34 AM

Wawasan Open University College is an open distance learning institution - set to bring opportunities for higher learning to Malaysians who wish to study for accredited qualifications or for personal enrichment without leaving their homes and jobs. Our flexible self-paced learning environment is specially designed for the convenience and accessibility of adult learners. Funded by charitable trusts, corporations and the public, it is Malaysia's first private not-for-profit open learning institution. It aims to bring down the personal cost of learning to a level that more people can afford. Wawasan Open University College chose to locate its headquarters in Penang, from where courses and programmes will be designed to the highest international standards for delivery to the whole nation using both analogue and digital technologies. Learners will be supported by trained tutors in learning centres across the country - located initially, in the higher population density areas of Penang, Ipoh, Kuala Lumpur and Johor Bahru.
